## About me

I am a passionate and goal-driven BCA student with a strong interest in Artificial Intelligence, Machine Learning, and Data Engineering. Through hands-on projects and internships, I have developed a solid foundation in Python programming, data analysis, and AI-powered applications. I enjoy solving real-world problems with technology and continuously seek opportunities to learn and grow in the field. I am currently looking for roles where I can apply my technical skills, creativity, and problem-solving mindset to contribute to impactful, forward-thinking projects.

## Education

Bachelor of Computer Application
Major in Computer Science and Applications

August 2024 - June 2028 (expected)
Techno Main saltlake

Major courses:
- Approaches in Data Science
- Gaining knowledge in AI/ML Technologies
- Exploring Web Development

Societies and Activities at the College:
- Member of the Technical Wing of the biggest Educational club (November 2024 - present)
- Member, Photography club (August 2020 - present)

Senior Secondary School (Computer Science)
With Distinction
Holy Child Institute Girls' Higher Secondary School

Jan 2010 - May 2024
Holy Child Institute

## Skills

- HTML5
- CSS3
- JS
- DSA
- MongoDB

- Java
- AI
- ML
- C
- Python

## Interests

I'm deeply passionate about the intersection of technology and education, with a growing interest in how AI can transform learning experiences. As I progress in my academic journey, I'm actively exploring academic writing, research in tech-integrated classrooms, and the use of intelligent learning systems. I'm also keen on mastering modern Learning Management Systems to design inclusive, engaging, and data-driven educational solutions.
